

Set Up LockDown in Canvas

Setup the Quiz and Adjust Settings:

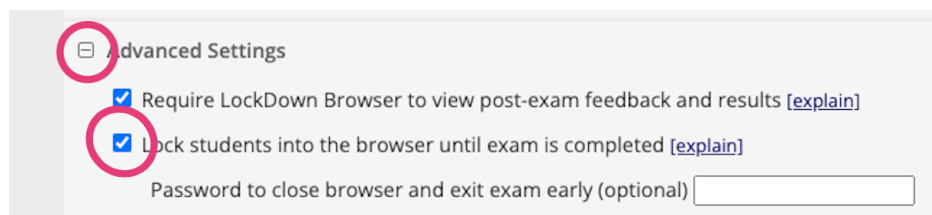

- Create a Quiz (*Classic or New*) in Canvas as you normally would.
- Click on **LockDown Browser** link in your course navigation in Canvas.
- Click on the **down arrow** next to the quiz for which you want to enable the LockDown Browser.

- Click the button next to **Require Respondus LockDown Browser for this exam.**

- Click the + next to **Advance Settings** and check the box next to Lock students into the browser.

Additional Advanced Settings.

- There are additional settings available depending on your testing needs.
 - If students are testing on a school iPad, you may check to allow Lockdown testing on an iPad.
 - All access to external web domains allows students to visit specified sites while taking the test.
 - Enable calculator and printing opens the features to students as necessary.

Password to close browser and exit exam early (optional)

- ☐ Allow students to take this exam with an iPad (using the "L
- ☐ Allow access to specific external web domains [\[explain\]](#)
- ☐ Enable Calculator on the toolbar [\[explain\]](#)
- ☐ Enable Printing from the toolbar [\[explain\]](#)
