tests/quizzes:

Tuesday, January 19th-Topic 8
Test

WORD STUDY:

-graph or -graphy
means to write or draw

photograph
autograph
paragraph
biography
geography

New Science Words

1. watershed – the movement of water from higher ground to lower ground.
2. lake – a large body of fresh or salt water surrounded by land.
3. river – a large, natural flow of water that crosses an area of land.
4. groundwater – water that flows or collects under the Earth's surface.
5. glacier – a large area of ice that moves slowly over land.
6. delta – a land formation created when the loose material a river is carrying builds up because the river has run into slower moving water.
7. gulf – a large area of ocean that is usually deep, inland and mostly surrounded by land.
8. bay – a large body of water partly surrounded by land but still with a wide opening into the sea. It is similar to but smaller than a gulf.
