

Mannsdale Upper Elementary

3rd Grade

Summer Reading

2022 -2023

Students must read the book, *The Trouble with Chickens* by Doreen Cronin

Overview of the book, *The Trouble with Chickens*

A whodunit that will keep readers guessing until the end, this witty farmyard mystery stars a canine detective and a family of crazy chickens that desperately need his help. J.J. Tully is supposed to be enjoying peaceful retirement on a farm, but it's a hard adjustment after seven adrenaline-filled years as a search-and-rescue dog, until his simple life on the farm is turned upside down when two chicks go missing. Moosh, the mother hen, is left with a ransom note and comes to J.J. Tully for help. After negotiating a hamburger out of the deal, J.J. takes the case. But things are not what they seem, and no one is telling the whole truth. Let the bird-brained hunt for the lost peeps begin!

Students will take a quiz on this book on August 19th. This summer reading quiz will count as one of their minor grades (40% grade) for the first nine weeks. The quiz will consist of twenty multiple choice questions that will assess their comprehension of the book.

Graphic Organizer: Students MAY want to fill out the graphic organizer below to help them remember the main events in the summer reading book, *The Trouble with Chickens*. Students are NOT required to complete this assignment; however, they will be allowed to use this sheet (and their book) when they take the quiz in August. Teachers WILL NOT pick up this optional assignment, so students will be responsible for keeping up with it until the quiz on August 19, 2022. This quiz will count as a minor grade (40%) for the first nine weeks term.

Directions: Write down the important events for the chapters. Important events are the main, or key, things that the characters did or had done to them that move and develop the story towards a solution.

Chapters 1-4

Chapters 5-8

Chapters 9-12

Chapters 13-16

Chapters 17-20

Chapters 21-23

May 10, 2022

Dear Parents/Guardians,

Your upcoming 3rd grader has a packet coming home with them for the summer. This packet includes skills that they have already learned and skills that they will learn at the beginning of 3rd grade. **The multiplication sheet stapled to the front of your child's packet is OPTIONAL, but it is HIGHLY RECOMMENDED that it is completed.** We start each year off with multiplication, and it is very beneficial if they already understand the concept before they start 3rd grade. They must be fluent in multiplication in order to do well in 3rd. **It would also be very beneficial to your child if you got them an analog watch so they can practice telling time on their own.** The rest of the packet must be completed by the start of next school year. Some examples of how they can work the multiplication problems are listed below. **There are also some helpful math websites on the back of this sheet.**

Thank you,
3rd grade teachers

Example: Repeated Addition (there are 2 groups of 5 so there are 10 total circles)

2 groups of _____

Example: Repeated Addition (there are 4 groups of 6 so the total is 24)

2. Which is equal to $6 + 6 + 6 + 6$?

A 6×3

B 3×6

C 4×6

D 6×5

Example: Repeated Addition (there are 4 groups of 4 so the total is 16)

4 groups of _____ $4 + 4 + 4 + 4 =$ _____ $4 \times$ _____ $= 16$

$$\begin{array}{r} 626 \\ - 117 \\ \hline \end{array}$$

$$\begin{array}{r} 788 \\ - 159 \\ \hline \end{array}$$

Will bought a jumbo bag of Fruit-o candy. Before chowing down, he decided to see how many pieces of each flavor there were. Use his graph below to answer the questions.

Jumbo Bag Fruit-o Candy

- How many more watermelon pieces were there than cherry pieces?
- What is the combined number of watermelon and strawberry pieces?
- How many pieces were there total in the box?
- Which flavor had the fewest pieces in the bag?
- Were there fewer cherry pieces or lemon pieces?
- Which flavor had exactly 30 pieces in the bag?
- Were there more cherry pieces or strawberry pieces?
- How many fewer lemon pieces were there than watermelon pieces?
- How many pieces were watermelon?

10) What is the difference in the number of lemon pieces and the number of strawberry pieces?

Write the number in expanded form.
